John's Story:

John Lloyd Leonard was born with aortic valve stenosis but was growing up as a normal little boy. The doctors were very positive and optimistic with his progress and behavior. As John grew older, however, his heart complications worsened at a rapid rate. John was admitted to Children's Hospitals and Clinics - Minneapolis March 26, 2002 and had emergency open heart surgery two days later. He fought through several complications, making very slow progress due to his poor cardiac output. After almost three months in the Pediatric Intensive Care Unit (PICU), his heart stopped. He was revived by the super medical staff at Children's. We knew his little heart would not keep him alive for much longer. We decided to go to St. Louis Children's Hospital (one of the best places in the world for pediatric heart transplants) on June 26th to await a heart transplant. John continued to struggle and his little heart fought as long as it could but it finally had enough on July 5th. John Lloyd is now an angel in heaven. He has touched the lives of so many people and memories of him will live on forever. We will never forget that beautiful smile!

The mission of the John Lloyd Leonard Memorial Golf Tournament is to provide financial help to Children's Hospitals and Clinics of Minnesota to be consistently on the edge of medical technology and development, and to help children and families during their stays.

Event Information:

Tournament Information:

Thursday, Sept 15th at Fox Hollow Golf Club, Saint Michael 1:00 PM shotgun start

*Registration starts at 10:30 AM with free driving range until 12:45 PM.

Questions: Brian Leonard (612) 388-7653 or brian@theleonardteam.com

Since the first annual John Lloyd Leonard Memorial Golf Tournament September 2002, almost \$150,000 has been raised for Children's Hospitals and Clinics of Minnesota. This money has benefited the new cardiac catheterization laboratory (John would have benefited from this laboratory during his stay), the PICU parent-to-parent support group, patient family sleep rooms and cardiac research. The annual golf event helps children, like John, born with heart defects and other complications. Today, one out of every 125 children are born with a heart defect. Our goal for this year's event is to raise \$15,000— putting our 10 year total near \$165,000!
